The Deka 8GGC2 (8GGC2M) is an American made GEL deep cycle battery. The GEL batteries offer many significant advantages over conventional liquid acid batteries. Because there is no liquid electrolyte to leak or spill out of the battery, the Deka 8GGC2 (8GGC2M) can easily be installed in hard-to-reach locations. There is no need to check fluid levels. The Deka 8GGC2 (8GGC2M) gelled construction also eliminates vibration damage to plates. These are manufactured by East Penn Manufacturing who also manufactures batteries under the name MK Battery.

The Deka 8GGC2 (8GGC2M) is a direct replacement for any 6V group GC2 (Golf Cart) lead-acid, GEL, or AGM batteries.

Warranty is for 3 month free replacement.
